Real Estate Price Prediction

https://github.com/aiyshwary/real-estate-price-prediction

OVERVIEW

A supervised regression case study that predicts house prices using the kc_house_data dataset, benchm
performance with R2 and MSE metrics.

IMPACT

Benchmarked six regression models with bagging/boosting and hyperparameter tuning to identify the mo

TECHNICAL WALKTHROUGH

The project includes a Jupyter notebook, the kc_house_data.csv dataset, and a slide deck summarizin

i) Notebook: ML_HOUSE_RENT_PREDICTION_CASE_STUDY IPYNB (1).ipynb

ii) Dataset: kc_house_data.csv (house attributes and prices)

iii) Slides: ML GROUP 8 (1).pptx

Loaded the dataset, checked distributions and missing values, and prepared features for regression mo

i) Exploratory analysis with pandas, matplotlib, and seaborn.

ii) Basic cleaning to ensure consistent numeric inputs.

Benchmarked multiple regression models to compare predictive performance.

i) Linear Regression, KNN Regressor, Decision Tree Regressor

ii) Random Forest, AdaBoost, Gradient Boosting Regressors

Applied bagging and boosting techniques, then used hyperparameter tuning to improve generalization.

i) Model selection guided by R2 and MSE metrics.

Compared model scores and selected the best-performing regressor based on error metrics.

Notebook can be run end-to-end with the dataset placed in the project root, producing charts and mode

KEY DETAILS

1. Loaded and explored kc_house_data.csv, performing basic cleaning and feature analysis for regres
2. Trained Linear Regression, KNN Regressor, Decision Tree, Random Forest, AdaBoost, and Gradie
3. Compared model performance using R^2 and MSE to select the best-performing regressor.
4. Applied bagging/boosting strategies and hyperparameter tuning to improve predictive accuracy.
5. Documented the workflow in a Jupyter Notebook and included presentation slides for project reporti

6. Explicitly excludes logistic regression from the model comparison, noting it is a classification algorith
prediction.

7. Includes a PowerPoint slide deck alongside the notebook for presentation-ready project documentat
